Ms. Taylor,

Thank you for resending the files.

The first concern I have is the connection of the purpose of the meeting with the break out discussions. The questions for the focused discussions do not involve the mitigations for the impacts of the project (the second bullet of the purpose). This is a corollary to my question on the conference call about anonymous polling. Large crowds are intimidating. People unaccustomed to public speaking may not overcome their nervousness to voice their opinions in a community forum. The smaller breakout sessions are an opportunity for those folk to provide feedback. Some groups (those culturally reticent like Amish or the fearful such as undocumented immigrants) will still not speak up if they come at all. I hope the whiteboard in the back of the room is sufficient to reach those residents.

Did the meeting flyer also go out in Spanish?

Jim

I am resending this email for Chris Amy since many had difficulty opening files and Chris is traveling.

Included in this email are draft discussion materials and the mail out flyer for the Sustainability Workshop scheduled for next Thursday, January 29th. The attachments included are:

- Draft presentation of topic discussion point slides to be presented at the Sustainability Workshop;
- Draft topic discussion questions for the interactive community "round table" exercise;
- Sustainability Flyer to serve as handout for background
- Mail out flyer sent to the Citizen's Advisory Committee (CAC), and the residents of the Northside Neighborhoods (Hillcrest & Washington Coles).

If you have any questions regarding the information provided please give me a call or send me an email. Please have any comments on presentation/discussion materials by close of business on Monday, January 26th.

Sincerely,

Christopher Amy

Debbie,
Please note that the email Chris sent out states that we included the mailer, but instead, he sent our Sustainability flyer earlier today. I included our flyer just in case he intended for them to review it as well. I don't think it would hurt, but you may want to add a note about it in the attachment list.
